

My Name

zanzong43.github.io

ABOUT ME:

I am currently a drafter searching to switch careers. I find coding challenging in a rewarding way and would love the opportunity to pursue my passion in a professional setting.

*****@gmail.com

Skills

- Html/CSS
- Javascript
- React
- Microsoft office and google drive variants
- Version Control (Git)
- Solidworks/AutoCAD

Projects

Ecommerce Store

<https://github.com/Zanzong43/ecommerce>

Using react and the commerceJS api to handle the backend, I created an app that lists products with their price and image. You can add items to a cart, view your cart (and subtotal) and clear your cart.

Pokedex

<https://github.com/Zanzong43/pokemonapp>

Using react and the PokeAPI I created a list of all pokemon showing their names and a picture of them.

Movie Searcher

<https://zanzong43.github.io/Movie.html>

Utilizing vanilla javascript, HTML, and CSS, I created an app that lets you search for a movie, view it's poster, and then watch it's trailer.

Education

* / Advanced regents diploma

- Maintained a 3.5 or higher GPA during entire duration with a final GPA of 4.0
 - Achieved a sequence in technology
 - Mentored other students
 - Competed in NCCC tech wars robotics competition
-
